Historically Black Colleges and Universities  
Undergraduate Program

**HBCU-UP**  
SUMMER BRIDGE PROGRAM

Tuesday, July 3-14, 2023

## The Program

Oakwood University Historically Black Colleges and Universities Undergraduate Program, HBCU-UP, strives through its member institutions to increase the quality and quantity of underrepresented Minority students completing baccalaureate degrees in science, technology, engineering and mathematics (STEM) fields.

Students will participate in research, mentoring, academic enrichment, opportunities for networking and receive information about graduate schools across the country. During the school year, students are eligible to be selected for a paid research opportunity.

The **Summer Bridge Enrichment Program** is a two-week virtual session that allows high school seniors to experience Oakwood University, prior to their enrollment in the fall, and prepare them for future academic success. Students will receive academic instruction, campus survival skills, mentoring, advising and an introduction to learning styles.

Interested students should complete the application form and return it to the Program Manager. He/she should provide an official transcript, an essay (1-2 pages) expressing his/her interests and career goals and three letters of recommendation from:

1. Science Professor
2. Mathematics Professor
3. Principal

### Eligibility

To participate in the Oakwood University HBCU UP program an applicant must be:

1. Planning to attend Oakwood University
2. Planning to major in the Sciences or Mathematics
3. Planning to attend graduate school after graduation
4. U.S. citizen or a permanent resident
5. Interested in conducting research

A minimum G.P.A. of 3.0 (B) is required and must be maintained during the Academic Year.

Applications are due:

**May 25, 2023!**

Completed applications should be returned to the Program Manager:
